

## CLEANING ADVICE

You have just bought “IDEAL” forged knives. These products are hand made, the blades are grinded, sharpened and polished in our factory, assembling and finishing are carried out in our workshop.

These items are dishwasher proof but to maintain their original aspect please follow the instructions below:

- ⇒ Never leave the articles soak in water.
- ⇒ Wash the blades in hot water and wipe them with a **soft non-abrasive sponge**.
- ⇒ Dry them with a soft cloth.

If the above procedure is not respected, the guarantee will not be applied.
